Hedgehog TUZIK

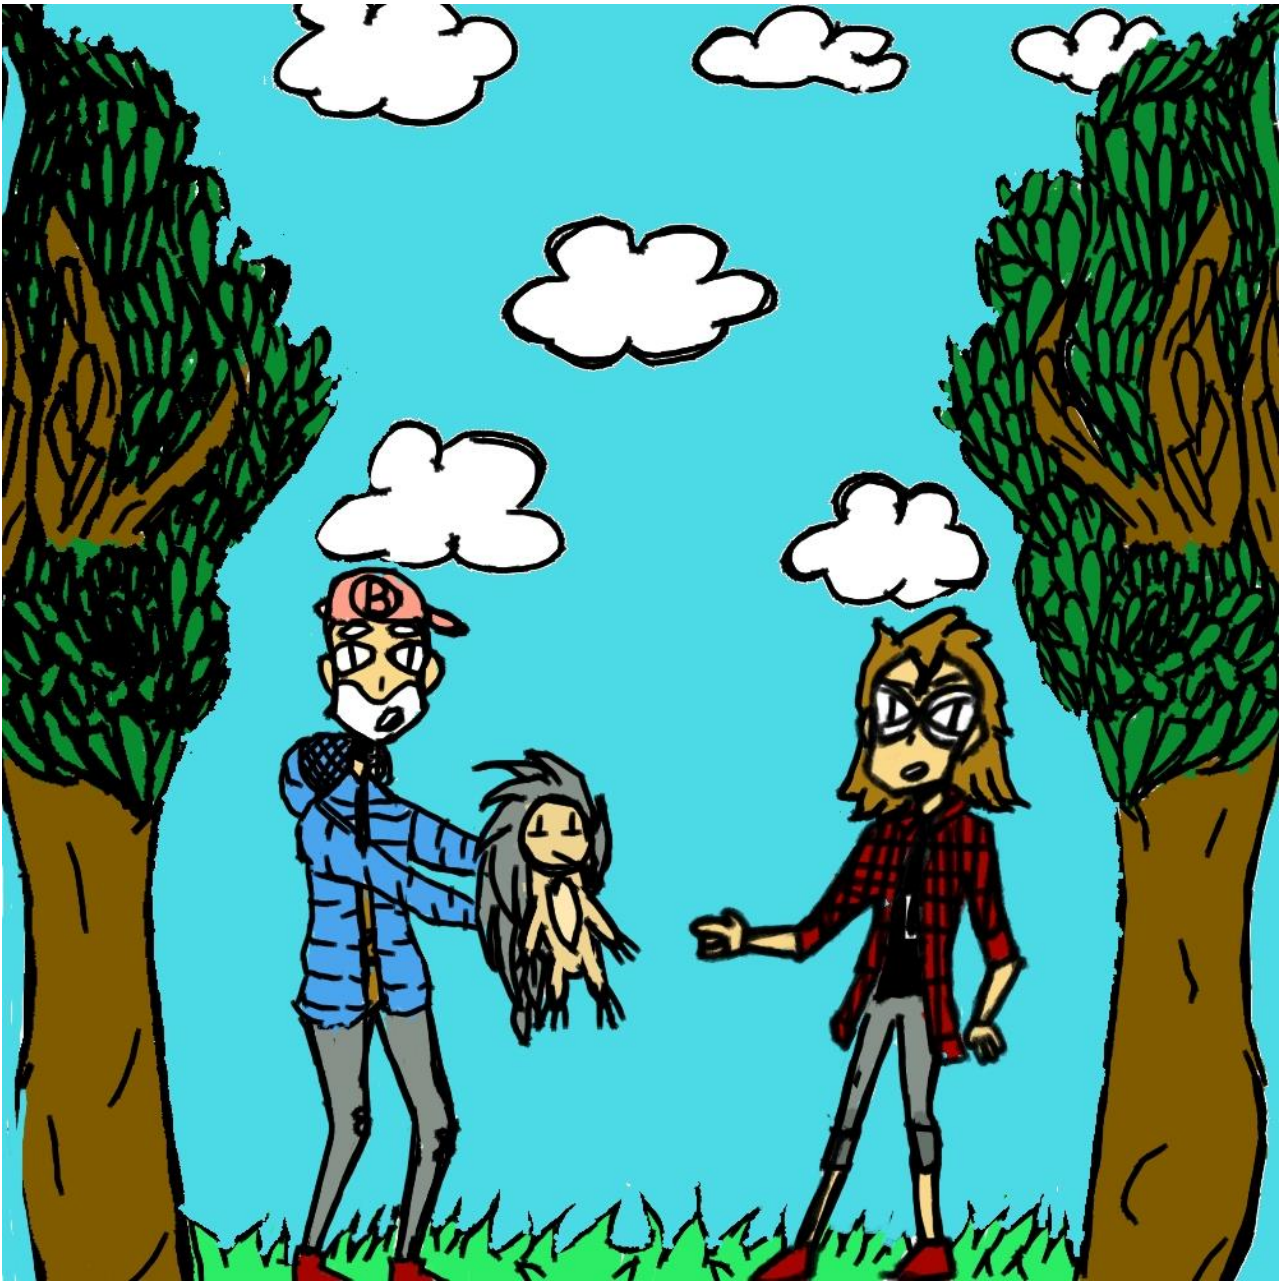

Hello, my name is Alex and I tell you fun story that happened in the summer.

My family rented a cottage near the forest.

Tall pine trees grew around the house and a wild forest was very close.

One evening my grandfather found a hedgehog.

We named him Tuzik, made him a small house of branches, gave him fresh milk and delicious sausages. Tuzik ate everything, but at night he ran back to the forest.

I was very sad, but the next day three hedgehogs came to us...
